

2015 Measurement Technology Workshop

The 2015 Measurement Technology Workshop will be held January 27-29, 2015 at the EPA facility at 109 T.W. Alexander Drive, Research Triangle Park, North Carolina. The workshop is an opportunity for EPA Regional, State, local and tribal regulatory personnel to get together to learn about what is going on new in the stationary source world. It is an informal workshop that encourages an interactive exchange of ideas and experiences. The workshop is restricted to only regulatory agency personnel so everyone can talk freely.

Included with this workshop announcement is a copy of the agenda for you to review. To register for the workshop please fill out the registration form and email to Candace Sorrell at sorrell.candace@epa.gov. Also included with the announcement is information about the current ID requirements for accessing a Federal facility. Please review to make sure you have acceptable ID before coming to the workshop.

If you have any questions concerning the workshop please contact Candace Sorrell at sorrell.candace@epa.gov. Look forward to seeing many of you at the workshop.
